

# Lyndon Chan

🏠 Markham, Ontario, Canada | ☎ 647-330-1294 | ✉ lyndon.chan@mail.utoronto.ca  
🌐 lyndonchan.github.io | 🐙 github.com/lyndonchan

---

## Skills and Expertise

- **Expertise:** Machine Learning (neural networks, SVM), Computer Vision (classification, detection, segmentation, multi-view geometry), Abnormality Detection, Convex Optimization
- **Programming:** Python (Keras, TensorFlow, Caffe), MATLAB, C/C++, Java, Ruby, R
- **Software:** L<sup>A</sup>T<sub>E</sub>X, Jupyter Notebook, GitHub, NumPy, Scikit-learn, Pandas, Matplotlib, SQLite
- **Languages:** English (native), Cantonese (fluent), Mandarin (conversational)

## Education

### M.A.Sc., Electrical Engineering

2017-2020

*University of Toronto*

Toronto, Ontario, Canada

- **THESIS:** *Weakly-Supervised Semantic Segmentation in the Multi-Class Setting across Different Image Domains* (co-supervised by Konstantinos Plataniotis & Parham Aarabi)
- **COURSES:** Foundations of Computer Vision (CSC2503H), Random Processes (ECE537H1), Signal Processing (ECE1512H), Convex Optimization (ECE1505H), Object Modelling and Recognition (CSC2523H)

### B.A.Sc., Electrical Engineering (GPA 3.64 / 4.0, 17th of 129)

2012-2017

*University of Toronto*

Toronto, Ontario, Canada

- **AREAS:** "Control, Communications & Signal Processing", "Analog & Digital Electronics", "Software"
- **CAPSTONE:** *DARI: Depth-variable Augmented Reality Interface* (won Gordon Slemon Design Award)

## Publications

### JOURNAL PAPERS

1. **L. Chan**, M. S. Hosseini, K. N. Plataniotis, "A Comprehensive Analysis of Weakly-Supervised Semantic Segmentation in Different Image Domains," in *International Journal of Computer Vision (IJCV)*, 2020. (pre-print) (code)
2. M. S. Hosseini, Y. Zhang, **L. Chan**, J. A. Brawley-Hayes, and S. Damaskinos, "Focus Quality Assessment of High-Throughput Whole Slide Imaging in Digital Pathology," in *IEEE Transactions on Medical Imaging (TMI)*, 2019. (paper) (code)

## CONFERENCE PAPERS

1. M. S. Hosseini, **L. Chan**, W. Huang, Y. Wang, D. Hasan, C. Rowsell, K. N. Plataniotis, and S. Damaskinos, "Can Histology Knowledge be Transferred for Histopathology Analysis?," in *Proceedings of the IEEE Conference on Computer Vision and Pattern Recognition (CVPR)*, 2020. (submitted)
2. **L. Chan**, M. S. Hosseini, C. Rowsell, K. N. Plataniotis, and S. Damaskinos, "HistoSegNet: Semantic Segmentation of Histological Tissue Type in Whole Slide Images," in *International Conference on Computer Vision (ICCV)*, October 2019, pp. 10662-10671. (paper) (code)
3. M. S. Hosseini, **L. Chan**, G. Tse, M. Tang, J. Deng, S. Norouzi, C. Rowsell, K. N. Plataniotis, and S. Damaskinos, "Atlas of Digital Pathology: A Generalized Hierarchical Histological Tissue Type-Annotated Database for Deep Learning," in *Proceedings of the IEEE Conference on Computer Vision and Pattern Recognition (CVPR)*, June 2019, pp. 11747-11756. (paper) (website)

## Research Experience

### Master's Student Research Assistant

University of Toronto (Multimedia Lab)

Sep 2017-present

Toronto, Ontario, Canada

- Developed novel semantic segmentation algorithm, compiled image dataset for computational pathology tool with Huron Digital Pathology, served as student reviewer for CVPR 2020
- Advised development of anomaly detection tool for industrial images with LG Science Park
- Compiled mathematical study of backpropagation in neural networks

### Undergraduate Student Research Assistant

University of Toronto (Multimedia Lab)

May 2017-Aug 2017

Toronto, Ontario, Canada

- Designed novel image classification network with fixed maximally-polynomial kernels, optimized for efficient training on limited pathology images

### Interim Engineering Intern

Qualcomm Canada

May 2015-Aug 2016

Markham, Ontario, Canada

- Built testing frameworks for optical flow, cadence detection, deinterlacing, image compression
- Operated image quality assessment and camera calibration lab, competed in two internal hackathons

### Undergraduate Visiting Research Intern

Hong Kong University of Science and Technology (Human Language Technology Centre)

Jun 2014-Aug 2014

Clear Water Bay, Hong Kong

- Performed unsupervised clustering of user personalities by country from OkCupid
- Predicted song popularity from social media mentions on Sina Weibo

## Teaching Experience

### ECE1512: Digital Image Processing and Applications (Head TA)

University of Toronto

Sep 2019-Dec 2019

Toronto, Ontario, Canada

- Designed and marked assignments and final project for graduate-level course on CNN classification, XAI

### ECE462: Multimedia Systems (Head Lab TA)

University of Toronto

Jan.-Apr. 2018

Toronto, Ontario, Canada

- Designed and marked lab assignments and quizzes for undergraduate-level course on image processing and compression, was awarded ECE Student Club Teaching Assistant Award
